## Summary

I am an Information Technology student who is passionate about learning and applying new technologies and skills. I am currently pursuing my bachelor's degree from Muthayammal Engineering College, where I have gained a solid foundation in programming, web development, and data structures. I have also completed my higher secondary education from Government Boys Higher Secondary School, where I excelled in mathematics and science. I have developed proficiency in C, HTML, CSS, JS, PHP and MySQL and I am eager to expand my knowledge and experience in other languages and tools. My core competencies include problem-solving, logical thinking, creativity, and teamwork. My goal is to become a successful IT professional who can contribute to innovative and impactful projects in the field.
